The 7OH Company

7-HYDROXYMITRAGYNINE

The future extract of Mitragyna Speciosa.

7-Hydroxymitragynine (7OH for short) is a terpenoid indole alkaloid. It is derived from the Mitragyna Speciosa plant found in Indonesia and is considered an oxidized derivative and active metabolite of mitragynine.

Simply put, 7OH comes from the M. Speciosa plant and has a stronger effect than your standard Mitragynine dominant products.

Mitragynine

Mitragynine Dominant Products

7-HydroxyMitragynine

3 count, 1 gram tablets
20mg 7OH per tablet
6 servings per package

(Tablets are scored for easy dosing)
